

# LTCCP 2006-16 SUBMISSION

Submissions close on 5 May 2006

**I do NOT wish to present my submission at the hearing, and ask that this submission be considered.**

**I am completing this submission:**  
For yourself

**Number of people you represent:**

**My submission refers to:**  
Summary Version of the LTCCP

**Page Number:**

**I also want to respond to:**

<b>Name:</b>	Chieko Bullmore
<b>Organisation:</b>	
<b>Daytime Phone:</b>	381-7324
<b>Evening Phone:</b>	
<b>Email:</b>	cbullmore@hotmail.com
<b>Address:</b>	50 Sullivan Ave Woolston Christchurch
<b>Your Submission:</b>	<b>Do you have any comments on the major projects in our Draft Community Plan?</b>
	RE: Bus Exchange Existing Bus Exchange has been already limited area and is located most central in the city. That has been leading traffic jam. Bus Exchange should be relocated instead of spending \$59.5 million on the existing building.
	<b>Do you have any comments on groups of activities (The activities and services the Council provides?)</b>
	<b>Do you have any other comments or suggestions you want to make?</b>
	<p>I do not think Christchurch city is safe place as recent increasing numbers of crimes, such as robbery, abduction, rape, etc. I do not let my children walk to school by themselves even day light. I do not like going out at night because not all streets have enough good bright street light. Dark streets and dark places lead more crime. I want that CCC considers to have street lighting up strategy and more precise community watch plan.</p> <p>Regarding Refuse minimisation and disposal.</p> <p>CCC should really think and act to reduce general rubbish (black bag rubbish) which means green/organic materials should be collected from usual collection. Also other than No 1, No 2 plastic recycle materials should be collected. If such recycling technology is not available in NZ, we should look up overseas' technology. Also hazarous materials from household goods, such as batteries (not liquid type), smoke alarm (contained radioactive materials), etc. should be collected separately.</p> <p>At the end I want to raise my voice that 52 official black bags should be allocated to the rate payers. Even if the rate price goes up because of the cost of extra bags, I would not mind to pay the rates in that way. That means rates money comes back to rate payers. It does not matter if the size of the bags is getting smaller.</p> <p>The matter is we should do recycle all recycable materials. Please refer european countries, North and South America, Asia, how other countries does for recycling.</p>
