Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	I feel that we should be keeping the community pools open. My main concern is our local pool at Edgware and as this is used by many families in the area with young and teenage kids it can only be a good thing to have in our community. The council is constantly promoting get active and push play messages and then wishes to remove a facility that helps us provide this for our kids. On any day during the summer the pool is full of kids and everyone of those is one that is not out vandalising things or steal or just plain bored at home. As your brochure states on page 15 healthy and active lifestyles are something's you want to promote, what better way to do it than by keeping our pool open or better yet if it is so old then build a new one in the same spot!! Don't spend \$8.5m on an indoor one in Papanui that we can't walk to cos' we won't use it. This pool is used by lots of people including the schools in the area. Please help us to keep it as it is an asset to our community not a liability.
	Do you have any other comments or suggestions you want to make?
	Library's are also a huge part of any community. Allow us to teach our kids to read and explore the world through the books at the library. Not every one can afford to buy new books and even fewer people can afford to go overseas to experience things, so don't close the door on another world our kids need their minds enriched and enabled not stagnated by Xboxes and Playstations.
