<b>Your Submission:</b>	<p>nm</p> <p>Dear Sir / Madam,</p> <p>I think a watersport facility like Lake Isaac at Mcleans Island would be an awesome resource for this city.</p> <p>Think of all the triathalons that could be run from there thereby attracting competitors from all over the Country. Multisporters and triathletes are high income, well travelled big spenders. Events for these people in Christchurch will generate lots of revenue for our city.</p> <p>Many triathletes follow Ironman events around the world. The lake Taupo Ironman has attracted bigger and bigger fields since it started and generates huge income for the Taupo community.</p> <p>We could have the same here in Christchurch. We already have the famous Coast to Coast lets get a world class water park and really take off as a sports destination.</p> <p>kind regards Kelly Barber Melissa Barber Burwood</p>
