Your Submission:	<p>lake Issac nm</p> <p>I am in full support for another facility for flat-water kayakers and potential multi sport race venue. I am in particular support of Lake issac because of:</p> <ol style="list-style-type: none">1. Major congestion on the Avon with dragon boaters, rowers and kayaker, limits the experience and potential for top achievement2. Hazards. Sooner or later someone will get serious hurt due to the congestion as well as the motor boats used by the rowers (they use these in winter at night!!!)3. The weed is getting worse. Can't paddle well when there is excessive weed. <p>Paddlers outside of ChCh will not race on the Avon because of this. We could should be able to hold the National Kayak Sprint champs in the South Island. plus many other reasons</p>
