	WILPF Otautahi would like to see the following included in the Strategic Direction for the city, particularly as they relate to the "Strong Communities". 1) We see the startegic goal of "Strengthening our image as peace city" as very important. This relates to a range of other objectives including: Celebrate and Promote Christchurch's Identity, Cultures and Diversity - This includes promoting peaceful relations within our society, creating peace through understanding. Protecting and promoting the heritage character and history of the city - through the recognition of the city's peace history and celebration of that history, we are creating a peaceful future. Promoting Participation in democratic process - Christchurch city supports the right of its citizens to voice thier views on peace issues, directly and through council representations at regional, national and international level.
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	Do you have any other comments or suggestions you want to make?
