Your Submission:	<p>submission, re; closure of redwood library</p> <p>sir, i wish to oppose the proposed closure of redwood library. as a resident of redwood, i find the library most useful, it enables myself and my children to walk to use the many facilities there, to meet with like minded neighbours. my daughter is able to walk by herself(she is 11 years old) to the library to source information vital for her schoolwork, knowing that there is always someone there to assist her. there is no way she could get to papanui library to do the same thing. how, as a council can you , in one hand ,encourage us to take more exercise and to use our cars less (clean air) and then make it impossible to get use these important facilities? redwood is growing at an alarming rate, wih the addition of redwood springs and regent park and the new northwood subdivision it needs extra facilities not less.</p> <p>i hope you will take my submission seriously and re- think this proposal. yours jacqui davies 34 dunedin street, redwood christchurch.</p>
