Your Submission:

Please PLEASE do not get rid of the mobile library. Since I became disabled the mobile library has become a life line for me. My nearest Christchurch public library is Shirley, (the Palms) where the parking is a nightmare. If I have to walk any distance from my car to the library entrance it's an ordeal, even using my stroller. And I can't afford the petrol to travel to other libraries (like South Library) where parking close to the entrance is guaranteed. So please consider elderly disabled people like myself, who live alone, and rely on library books for their enforced leisure.
