Questions

① Do you have any comments on the major projects in our draft Community Plan? page number

Re Libraries

Re: Savings on Services (p. 4 of City Scene Apr/2006)
It has been suggested that Council "Rationalise community libraries". I disagree with this suggestion as I consider it ^{important} ~~important~~ that our citizens be given opportunities to extend their general knowledge and be able to enjoy the many books and papers available for reading and research - libraries need to be near the community, it serves and not everyone is able to travel to a library in another suburb

② Do you have any comments on groups of activities (the activities and services that Council provides)? page number

Re Parks

I hope that our city will continue to have a good number of parks available to all citizens, that these parks will be suitably set up and maintained and that the tree plantings will include equal numbers of all trees and shrubs - not just natives. It might be possible to extend the practise of involving volunteer groups set up for the specific purpose of maintaining a particular park e.g. Friends of Edmonds Reserve

③ Do you have any other comments or suggestions you want to make? page number

Re Facility For Water Sports

I hope that a suitable facility will soon be available for all water sports and any sports which involve water activities e.g. triathalon. I am most disappointed that the Lake Isaac Project appears to be doomed to be taken off the list of Council's planned projects
