### Libraries

Closing of the mobile library should never happen as it would be very unfair for elderly & disabled people, instead it should be advertised more in bold print in community papers.

Closing of Redwood - Bishopdale & Speydon Libraries is wrong because unlike Brighton & Riccarton they are adjacent to shopping centres which allows restricted people to do everything in the one area.

Reading has many advantages eg: Education, Self development, an escape from loneliness, keep children occupied & far better than T.V., Talking books for the blind, Access to Computers, Cheaper for people on restricted incomes.

CH CH Libraries are well resourced & with wonderful staff the use of facilities should be encouraged not closed down. As an ageing community elderly need close assessable places as they cannot carry a number of books.

### Community Grants

These grants should be reviewed with plenty of thought. They cater for many lovely people of whom are our restricted incomes. This also allows these people to access quality of life they would not have, this being very important. With an ageing community this should make it a priority to save.

Dr Carol
