

LTCCP 2006-16 SUBMISSION

Submissions close on 5 May 2006

I do NOT wish to present my submission at the hearing, and ask that this submission be considered.

I am completing this submission:
On behalf of a group or organisation

Number of people you represent:

My submission refers to:
Full Version of the LTCCP

Page Number:

I also want to respond to: Aquatic Facilities

Name:	Rowan Feron
Organisation:	Cross Over Trust
Daytime Phone:	3385288
Evening Phone:	0212290329
Email:	crossovertrust@spreydon.org.nz
Address:	PO Box 33048 CHCH

Your Submission:

Do you have any comments on the major projects in our Draft Community Plan?

Pg 61 Essential Capital Projects. These projects are essential, but we are concerned over the vision of the council for the long term, particularly over the New Bus Exchange. The Planners of the existing one proved themselves to be short sighted, All these projects must have a comprehensive vision and be developed to carry us into the future, not just meet present need and waste our hard earned Cash. Public interests must be listened to and heeded on future development. Our group feels that decision makers listern but dont give enough credit and weight to the communities voice.

Descretionary Projects: Priority. Our group is sick of hearing about the bleeting needs of the central city. We believe that the rate payers role is to provide the basic infrastructures for businesses to use. There is no place for the CCC to get involved in running a Mall where there is no MAIL. If Business wants a mall then make them pay for it.

School Safety Zone Infrastructure. School zones are important, but we dont think that permanantly mounted flashing signs are going to be particularly helpful. Fixed normal signs say shcool zone 40 would do the trick if there was one or two more of those portable speed trailers to move around the schools.

Do you have any comments on groups of activities (The activities and services the Council provides?)

We value the support of our community Board and want to see this continue and develop. The employees are a credit to the CCC. We want to see Community Boards being given more \$ to help meet the needs of their community, where a disadvantage is shown to be.

Community Support, Pg 97.
We think the community Outcomes are good goals. We think the CCC has under budgeted the Community Grants side. We know that the community of disadvantage is growing, therefore so does our financial commitment need to grow to meet it. Central Government knows they need more prison space, well the community needs more money to prevent our youth and young adults from getting into prison. These are community issue that we as a community need find the solutions and resource them to help stop the tide.

(Cont'd):**

Do you have any other comments or suggestions you want to make?

Swimming pools are a valuable community resource, if we are to remove some then you must look at what can replace that resource. Money should not necessarily just be soaked up into the big bucket. The individual communities have paid into those facilities through user charges for years, they should see a return to their community.
