

# Summary submission form

## Instructions

You may send us your submission...

### Please read before completing your submission

It will help us process your submission if you clearly state the issue you want the Council to consider, what specific action you think the Council should take, and why that should be done.

If you wish, you can present your submission at a hearing. (If that is the case, please tick the box). The hearings will be held between Thursday 25 May and Wednesday 7 June 2006. Generally, 10 minutes are allocated for hearing each submission, including time for questions.

It will help us if your submission also refers to the page of either the full version or the summary version.

Please note: we are legally required to make all written or electronic submissions available to Councillors and to the public. This includes the name and address of the submitter. All submissions will be published on the Council's website from 10 May 2006.

No anonymous submissions will be accepted.

### By mail

Please mail your submission (no stamp is required) to:

### Questions

① Do you have any comments on the major projects in our draft Our Community Plan? page number

When submissions are called ~~we~~ listen and act on the majority vote  
Why were Banks Peninsula rate payers given a vote on amalgamation but City residents not? It was publicly stated prior to the ballot that no rate increase for city ratepayers would be required - now we are told that the Peninsular roads are one of the reasons for a rate increase!

② Do you have any comments on groups of activities (the activities and services that Council provides)? page number

Close the least supported libraries if financially desirable but consider the education, knowledge, enjoyment and company books can provide for those unable to travel far so retain a mobile service  
The planting of grasses does not enhance either commercial or residential environments but could be attractive where we sprawl into existing farm lands. Aesthetically our English settlement should predominate but there is a place for NZ natives and trees from other countries that blend in

③ Do you have any other comments or suggestions you want to make? page number

Permits for new buildings only granted if they fit the local environment and be meticulously inspected. Demolishing landmark buildings and trees should be restricted.  
Council money is presently being wasted in some areas. This should stop. Some proof - Trees pruned after years of being left (then cut to council height restrictions) when they were felled 3 months later  
Road sealed (not worse footpath)

You may add more pages if you wish. Thank you for your submission.

When that is to be completely reramped. There are other areas where savings could (and should) be made.
