

CCC

Library submission for KTECP
Objection to library closures.

Closures of libraries? Are we going backwards?

Closures are unthinkable and unjust, particularly for children, the elderly and the disabled.

As an avid, aged, disabled library user, who chose her house because of convenient access to the library, the notion of any library closure is devastating.

Please consider your responsibility in either enhancing or reducing the quality of life of these, often less privileged, of your ratepayers.

Yours sincerely,
M. David

88A Tilford St.
Hinwood.
