

5/5/06.
Mr. W. N. LOGAN
33 Bampton St
Sturley

The Mayor & Councillors.

After reading the Press 1/4/06 makes me disgusted with the Mayor & councillors for agreeing to sign a pledge of loyalty to the CEO except one or a half. The Mayor & Councillors are elected by the rate payer, the CEO is only an employee of the council. It just shows how easily the councillors are lead like a lot of sheep. What happened to freedom of speech?

If the CEO requires the councillors to sign a pledge of loyalty, it just shows how insecure she feels.

It just shows how the Mayor & the CEO have lost their way.

Let me put you back on track again, the Mayor was elected with the councillors by the rate payer & responsible to the rate payer to look after the city & the CEO was employed to look after the staff & not the tail wagging the dog.

More training required she is dealing with human being not damn sheep. I see in the Press 8/4/06 where the Mayor has taken up mind reading.

How much is going to be spent of on his mind reading room & what is he charging per visit?

Also the councillors want to get their hands on the Bertelsmann fund on education to help. You respect each other, well I have a faster & cheaper way, a good trick in the long & bang your heads together, you are supposed to be grown up not damn kids. even if acting like one.

No wonder the city is dead when we have a councillor & Mayor who have run out of puff.

Due to the way the CEC have stuffed it, I would like to see all Councillors Mayor CEO & all new staff the CEO has employed sacked & not permitted to stand or scaphy again & get the old staff who can do the job back again & make a fresh start.

This path we have given all the money, the city will still be dead. Look at the millions that have been squandered on the SGP & you still haven't any ideas on what to do.

I'm returning the whole damn LTCB draft as it's not worth the paper it's written on. I'm not going to waste my time on this rubbish & what's more you only listen to what suits, you just keep putting the nation up without a thought for the pensioners as most are only on the GRI.

What about Don Murro on the parking meters with the new coin change, he's going the expensive way when a cheaper way has been suggested to him & it would bring in more revenue.

The letters to the Press April 4/06 say
it all, & I agree with every word.
I see by the Press 15 & 16/4/06 the LPC
admits the infrastructures are run down,
that is the same as the city roads &
dirty streets.

Both the CCC & CCH have spent the
money on other useless work such
as the \$500000 on the new meeting rooms
which was pushed thru by stealth,
the same as this post deal would
have been, but the public get
off their butts.

CCH CEO said it was better to have
50% of a prosperous port than 69% of
one that was declining, & whose
fault is it, if it is declining.

Yes is what makes me so bitter
when a decision you people
get down on your knees & tell how good
you are & what good you're going to
do for the city & rate payers & you
no sooner get in & due to loss of
memory all what you said is
forgotten, don't worry the gov are the same.

The only thing you never forget is
put the rates up & up. These rate
increases you have in mind makes
me wonder what makes you so
bitter to hate the rate payers so
intensely for.

Look at the cock up on NZET
by Auster, she lost our Rate & Tax
money.

(4)

This beautifying of the street could be put on hold until you have the city organized then work out from the city centre

Stop squandering rate money on new pedestrian lights.

All this money you say you'll save by cutting this & that out I don't believe, as you always over estimate what you'll save & under estimate what the work will cost

Referring to the Press 19/4/66 on the CCHL change of direction, I strongly disagree. Instead of Lincham trying to show the public how good he is investing our rate money the CEC should use some on the infrastructure work in the city & that would ease it.

I see by the Press the CEC are putting Buses before cars.

This backs up what I've said all along, if the CEC thinks of it OK,

but if a rate payer suggests it to the roading & traffic section of the CEC with regards to Poppenie rd. morning & evening traffic such as no parking for the town traffic giving them two lanes & the out going traffic at night. & the answer was no we couldn't do that, & that is because the CEC didn't think of it. So I hope in putting your ideas in you do your checks before you change & make a cock up like you usually do & have to carry out changes.

The ccc are to think again about the move to replace E CAN for the region because the ccc are making a real mess of running the city. Our rate money is for the maintenance of the city & not to spend on instructing the staff to prepare a report on the possible formation of a unitary authority. This is nothing but squandering our rate money. You lose again & have nothing to show only make the Mayor & councillors look bigger fools than they already are.

I remain

Yours
