greetings

- ① I wish to see the Reinstatement of "The Midheathcote Vision" project.
- ② I wish to see the inclusion of heaaron-Heathcote Ihutai Trust Development
- ③ The Inclusion of the Cishmere Stream Living Streams Development
- ④ I wish to see the implementation of "The Biodiversity Strategy"
- ⑤ There's plenty of money for these projects, all you have to do is to reduce the amount of spending on the Banks Peninsula over the cost of rates from BP. Perhaps you have forgotten the people of Christchurch City did not vote for the amalgamation indeed some years ago they voted against amalgamation - hardly democracy at work

## Policy on Significance Section

Funny how these two pages do not appear in the Summary document.

① I wish to see the Reclassification of the Big Red Bus Company and City Care.

② I think the Councillors don't know what they are voting for or against. There's no thought and I don't think most of them are worth the \$75 000 pa.

③ Why are staff going to decide what will be or not be "significant criteria". This takes away the traditional rights of citizens or their elected representatives to be consulted. This (the proposal) seems to suggest the Council bureaucracy will be taking action without bothering to consult. Will we see the closing of Community Boards?

© Neill M,

Service Cuts

I oppose the closure of  
community libraries.

I oppose the withdrawal of the  
mobile library.

I oppose the reduction in  
number of City Scene issues

I oppose the proposal to outsource  
of Council payments from Service Centres  
to NZ Post outlets. This suggests another  
attack on Service Centres and the attempt  
to centralise services back into Tuan St.
