Your Submission: **Do you have any comments on the major projects in our Draft Community Plan?**

Regarding the proposed savings on pages 86/87, I do not agree with reducing the number of libraries as I feel they are an important part of everyday education and should be promoted not closed.

I also see no good reason for closing the outdoor pools. I use the Edgeware pool and it was always busy this summer. Another important local facility. We should not be encouraging people to travel mopre around the city but use local facilities.

I think that you could safely discontinue the city scene magazine without any adverse reaction.

I would rather see all day parking fees increased in the city in order to encourage people onto buses, and keep short term parking cheaper in order to encourage people into the centre to shop and visit art gallery etc.

Do you have any comments on groups of activities (The activities and services the Council provides?)

Do you have any other comments or suggestions you want to make?

The council should get back to basics and make the city work efficiently before getting carried away by fancy projects.

Make streets clean and attractive.

Make rubbish collection work.

Keep streets safe and pleasant to live and work in.

Encourage Christchurch people to look after their city and be proud of it.
