<b>Your Submission:</b>	<p>Lake Isaac/ Submission</p> <p>I would like to submit my submission to see that a plan is devised for Lake Isaac to go ahead. What a great asset this would be for the people of Christchurch,. Lake Hood in Asburton is a wonderful example and has bought the community together. The talk of bird Strikes seems to me ridiculous when one is at Lake Roto Kohatu the planes are going overhead. Kerr's Reach has become too small and congested and the state of the water is a health hazard.</p> <p>Think of future generations PLEASE Fay Bain Ratepayer</p>
