Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	<p>My comments refer to the development of Lake Isaac.</p> <p>I believe there was funding allocated previously to this project, but was undelivered. I believe bird strike and the airport proximity were the reasons.</p> <p>The site has been moved and is now 4km away. Both Auckland and Wellington airports are surrounded by waterways, and for both bird strike is highly manageable. Most airports in the world have waterways very near... LAX etc.</p> <p>The opportunities Lake Isaac would bring to the community are huge. All ages, abilities, huge selection of activities. With societal health issues rising, promotion of physical activity and socialising in healthy manner is paramount, as is developing facilities to foster these. If bird strike is the only concern, which I believe it is, the benefits to the community of having such a facility far outweigh any bird strike matters, that really dont seem an issue in other places with similar geography.</p> <p>I would like the council to put Lake Isaac back on the top of the priority development and funding list for all the benefits above. Council members only need to come down to Kerrs reach to see how overcrowded it is with recreationalists, and how poor the water is, both weed and pollution. After viewing I would be very surprised if anyone argued that Lake Isaac would not be fully supported by the whole community.</p>
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	Do you have any other comments or suggestions you want to make?
