Your Submission: **Do you have any comments on the major projects in our Draft Community Plan?**

Do you have any comments on groups of activities (The activities and services the Council provides?)

Do you have any other comments or suggestions you want to make?

1. Many developers and builders have developments / buildings priced and sold based on the existing development contribution levy structure. The Draft 2006 LTCCP introduction makes no allowance for existing contracts (land sale and purchase, building) where consents are not in place.

2. The consultation requires either a longer introduction timeframe or transitional period to make allowance for existing agreements.

3. How does the council propose to treat applications for building consents that are lodged with Council but take longer than the statutory processing period?

4. We believe the Council's proposal will have a large detrimental effect on our business (we are a builder, not a developer) and related businesses in the Canterbury region into the future. This decision needs to be made with more lengthy consultation with parties who hold a vested interest. For the record we are not a developer
