Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	<p>The council must ensure that the quality of our water supply is maintained. We have probably the most pristine water in New Zealand if not the world.</p> <p>There are very few places where one can drink untreated water of the quality of ours straight out of the tap. I want my grand children to be able to enjoy it too. The Council must ensure that it is not polluted by any source. They must support and work with Ecan to ensure the water we enjoy now is available for future generations.</p>
	Do you have any other comments or suggestions you want to make?
	<p>The proposal to close the Spreydon Library is short sighted and should not proceed. There are numerous over sixties dwellings in the area with more being built. Given our aging population it is likely that even more will be built. People living in these dwellings can all walk to the Spreydon library. If the library is closed, the nearest library will be South and I do not see these people walking to South. Instead these people will drive to the South library causing more traffic congestion and pollution, both outcomes that we should be avoiding. The council could consider expanding Spreydon and putting in a cafe similar to South.</p>
