Do you have any comments on the major projects in our Draft Community Plan?

I believe that it is important that waste water is disposed of in an environmentally friendly way, and I support the proposed investment in expanding and upgrading the waste treatment facilities.

The council should encourage the use of public transport through bus lanes/priority systems, and encourage cycling through continuing to build cycleways and cycle lanes.

Pursue waste minimisation through policies which make the disposal costs of items part of their upfront costs, where this is in the council's power.
Continue to invest in new libraries without closing existing facilities.

Do you have any comments on groups of activities (The activities and services the Council provides?)

Do you have any other comments or suggestions you want to make?

Ensure the decisionmaking process and bureaucracy is transparent, then not collect the rubbish bags of people who complain about small rate increases that are necessary to improve core services.
