

Assessments of Various Services

The Local Government Act 2002 requires territorial local authorities to carry out an assessment for water and sanitary services in accordance with sections 123 to 129 of the Act by 30 June 2005. This is to ensure that future demand for services can be met and the public health is protected.

In the following section of the LTCCP there are assessments of the city's water supply, public conveniences, wastewater collection and treatment, stormwater and cemeteries and crematoria. It also includes the Council's waste-management plan.

Section 128 of the Local Government Act 2002 states that an assessment of sanitary services is not required if the Council considers public health matters have been adequately addressed in a waste-management plan. Consequently the Council's Waste Management Plan fulfils these requirements.
