

7-5-07.

1 WORTHY ST,
ILHAM 8041,
CHRISTCHURCH

I, and other ratepayers consider that any money spent on Lashel Street is a waste, when there are more important areas where money could be spent. One is flooding in my street, every time it rains there is flooding. I never visit the Central City, there is nothing there that interests me, also it is not safe, especially at night so the Town Hall and other places are out.

There also should be user pays, every amenity, including libraries and swimming pools, should pay their own way. I, and others I know never use any of these amenities so why should we be forced to pay to prop them up? I know I will not receive a satisfactory reply to this letter, but, at least you know my views.

I have sent in my user

pay view for eight years,
and have not received a
satisfactory reply so far.

Do you listen to submissions
sent in? It would seem not.

I do not wish to attend a
meeting, the Central City is
out for me.

H. Smith.
