

Officer responsible Water Services Manager	Author Christine Heremaia, Landscape Architect
Corporate Plan Output: 1998/99 Water Services Capital Outputs: Asset Improvements 9.3.40	

The purpose of this report is to seek funding of \$300 from the Burwood/Pegasus Community Board for the Community Planting day at Janet Stewart Reserve.

The area around the car park and along the street frontage are the only areas yet to be planted at Janet Stewart Reserve. It is planned to again involve the community in this planting with another community planting day on Sunday afternoon 29 August 1999.

It is proposed to make it a fun day by supplying afternoon tea and face painting for the children.

The last three community planting days have been supported by both the Shirley/Papanui and the Burwood/Pegasus Community Boards and it is hoped that they will again support this year's event.

The Water Services Unit and the Parks Unit are seeking \$300 from each of the two boards for the food, toilet hire and children's face painting.

Recommendation: That the Burwood/Pegasus Community Board provide \$300 towards the cost of a community planting day at Janet Stewart Reserve on 29 August 1999.

Chairman's Recommendation: That the Board support the allocation of \$300 from its Discretionary Funds towards the Janet Stewart Reserve Community Planting Day.
