The Committee reviewed the 50 responses received to date which for the benefit of members were summarised and listed under category headings. Suggested courses of action in dealing with the various matters raised were proposed in a number of instances. The next agreed step in formulating the Community Action Plan was to host several community forums with the objective of identifying any other issues or gaps in known information as well as seeking validation on the issues raised so far.

Following this process the Steering Committee would be in a sound position to finalise priorities and projects for further action for recommendation to the Board in the form of a draft Community Action Plan.
