

Officer responsible City Streets Manager	Author Peter Atkinson, Area Engineer (Central City)
Corporate Plan Output: On Street Management	

The purpose of this report is to create three spaces for resident parking in Chester Street.

There are a number of properties in Chester Street where it is not possible to park a vehicle on the property and as a result a resident's car park has been requested. The area is one where there is a significant amount of commuter parking there are no existing parking restrictions and as a result a residents parking area has been requested.

It is proposed to create a residents parking area on the southern side of the street adjacent to Barbadoes Street for 4 vehicles.

This restriction is in accordance with Council's policy and has the support of the Parking Operations Manager.

Recommendation: That parking of vehicles be restricted to vehicles displaying a residents permit on the southern side of Chester Street commencing at a point 17 metres measured in an westerly direction from a point opposite the western kerbline of Barbadoes Street and extending in a westerly direction for a distance of 10 metres.

Chairman's

Recommendation: That the officer's recommendation be adopted.
