

5. CANTERBURY REGIONAL COUNCIL – NEW PEST STRATEGY

The attached report is a discussion document on new pests.

The pests discussed are divided into four main categories:

- (a) Those suitable for a Regional Pest Management Strategy
- (b) Those that should be put under regional surveillance
- (c) Those for which other initiatives by the Regional Council are appropriate
- (d) Those that require no further Regional Council action

Chairman's

Recommendation: For discussion.
