

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer
Corporate Plan Output: Signs and Markings	

The purpose of this report is to gain Board approval for the installation of a “Give Way” against Godley Drive at its intersection with Taylors Mistake Road.

Traffic travelling west on Taylors Mistake Road is experiencing difficulty with traffic exiting Godley Drive and not giving way to the through traffic. Following the reconstruction at this intersection and the new kerb and channel, the carriageway width at the corner was reduced to give a better direction for eastbound traffic and slow the traffic exiting Godley Drive. A “Give Way” against Godley Drive would allow eastbound or right turning Taylors Mistake traffic a clear passage of travel over the brow of the hill.

A “Give Way” control against Godley Drive would improve safety at the intersection.

Recommendation: That a “Give Way” sign be placed against Godley Drive at its intersection with Taylors Mistake Road.

Chairman’s Recommendation: That the officer’s recommendation be adopted.
