

<b>Officer responsible</b> City Streets Manager	<b>Author</b> Bill Greenwood, Transportation Safety Engineer
Corporate Plan Output: Road Safety Strategy	

The purpose of this report is to bring the Christchurch Road Safety Strategy to the attention of the Community Board and identify a local community consultation process.

**DISCUSSION**

The City Services Committee and the Coordinating Committee for Traffic Safety have adopted the Christchurch Road Safety Strategy for public consultation. Copies of the draft document are attached (Board Members only). To present the strategy to the wider community and interested stakeholders a public forum is to be held 10.30am 17 February 1999 at the Centra Hotel.

Consultation with the Community Board is considered an important facet of obtaining community views and ownership of the road safety issues identified in the draft document. The editorial team would appreciate a local opportunity to discuss the strategy. A Board, Traffic or Community Services Committee meeting may be considered a suitable forum. A public meeting or workshop for local resident groups, hosted by the Board may also be suitable. Please notify the author of your requirements so they can be accommodated.

**CONCLUSION**

The draft Christchurch Road Safety Strategy is being circulated to obtain community feedback. A way to obtain the local communities views regarding the document and to encourage wider ownership of the strategy within the community needs to be identified by the Board.

- Recommendations:**
1. The Draft Christchurch Road Safety Strategy be received
  2. That the Board jointly meet with the Hagley/Ferrymead Community Board to consider the Road Safety Strategy.
  3. That the Community Advocate circulate the report to all Residents' Associations and Community Groups.

**Chairperson's**

**Recommendation:** That the aforementioned recommendations be adopted.
