

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer
Corporate Plan Output: Traffic Signs and Markings	

The purpose of this report is to gain Board approval for the installation of a “Give Way” against Raupo Street at its intersection with Linwood Avenue.

Traffic travelling on Raupo Street is experiencing difficulty with vehicles turning right from Linwood Avenue not giving way to right turning traffic. Linwood Avenue is a major arterial and carries a large volume of commuter traffic.

A “Give Way” control against Raupo Street would improve safety at the intersection and remove any confusion for right turning traffic from either road.

Recommendation: That a “Give Way” sign be placed against Raupo Street at its intersection with Linwood Avenue.

Chairman’s

Recommendation: That the Board adopt the above recommendation.
