

10. RESIDENTS ASSOCIATIONS CONTACT

Officer responsible Community Advocate	Author Bruce Meder, Community Development Adviser
Corporate Plan Output: Community Services 8. 4. 16	

The purpose of this report is to consider assigning Board members as the contact for each Residents Association and Groups.

Background

During the previous terms of the Board each member was assigned as a 'contact' for each Residents Association, the purpose being to strengthen contact with groups by having one member they can contact and also the member having responsibility to attend their meetings to help communication between groups and the Board.

Groups can, of course, invite any or all members to their meetings, functions etc if they wish. Service Centre staff also maintain contact with the groups and attend their meetings.
