

<b>Officer responsible</b> Water Services Manager	<b>Author</b> Robert Watts
Corporate Plan Output: Capital Outputs: Waterways and Wetlands Ch 9.4.45	

The purpose of this report is to inform the Board of a delay in reporting on Moncks Bay flooding. The Board will recall that staff of the Water Services Unit and City Design have investigated flooding in the Barnett Park, Bay View Road and Cliff Street area in consultation with the Redcliffs Residents' Association. It was intended that the Board be provided with a report in July that summarised the work completed to date (amounting to \$52,000) and present proposals for addressing the lack of flow capacity in Rifle Range Drain in major storm events. The latter has proved more complex than anticipated and it has been decided to delay the report for one month.

The additional time will allow a more comprehensive range of measures for reducing flood damage to be considered rather than civil works done, which in this case do not provide the complete answer.

The Redcliffs Residents' Association will be advised accordingly.

**Recommendation:** That this information be received.

**Chairman's Recommendation:** That the information be received.
