

## 11. COLOMBO STREET SHUTTLE BUS STOP

RR 9416

<b>Officer responsible</b> City Streets Manager	<b>Author</b> Peter Atkinson
Corporate Plan Output: On-street Operations	

The purpose of this report is to create a new shuttle bus stop in Colombo Street to the north of Welles Street.

There have been a number of request to create a new shuttle bus stop on the eastern side of Colombo Street between the two existing stops located south of Tuam Street and adjacent to Smiths City Market. The distance between these two existing stops is greater than those that are in place along the remainder of Colombo Street and there are a number of business that would benefit from this extra stop.

The proposed stop will displace two existing parking meters and has the support of the two adjacent business. The Parking Operations Manager also supports the following recommendation.

- Recommendation:**
1. That a bus stop be created on the eastern side of Colombo Street commencing at a point 6 metres measured in a northerly direction from the northern kerbline of Welles Street and extending in a northerly direction for a distance of 13 metres.
  2. That the existing parking restrictions in the above described area be revoked.

**Chairman's Recommendation:** That the above recommendation be adopted.
