The purpose of this report is to obtain the Committee's recommendation to the Council for the legalisation of land as legal road and to the disposal of a portion of land surplus to roading requirements.

LAND OWNERSHIP

The schedule sets out the land ownership the sitings of which are shown on the attachment. It is proposed to classify all the parcels of land for the purpose of Road Diversion.

When all of the land is held by the Council for this purpose a legal survey will be carried out to create a link strip (0.2 m in width) on both sides of the road against the property boundaries. This link strip will restrict access from the adjoining owners to QEII Drive which is a major arterial road. This link strip will be held in Council ownership. The balance of the land will be legalised as road.
