

4. NZ POLICE REPORT

At the February meeting of the Committee Inspector Barry Thackwell undertook to report on the effect of the use of micro-wave speed units funded by the Council.

Inspector Thackwell reports the collisions involving speed were reported in Christchurch as follows:

		% of Total Report Collisions
1996	218	20.7%
1997	192	21%
1998	141	16.5%

The lower result in 1998 could be attributed to increased enforcement through the availability of the micro-wave units.

Inspector Barry Thackwell will comment further at the meeting.

Chairman's

Recommendation: That the information be received.
