

11. MEMORIAL AVENUE – PLANTING PROJECT

RR 9603

Officer responsible Community Advocate	Author Peter Dow
Corporate Plan Output: Fendalton/Waimairi Community Board Vol 1, 3.1 text 7	

The matter of planting along the Memorial Avenue (Russley Road to Orchard Road) approach to Christchurch International Airport has been discussed by the Board on a number of earlier occasions. More recently the emphasis for this particular project has been linked with the proposed Millennium project for roadside planting along S.H.1, including the full length of Johns/Russley Roads.

Andrew Craig, Landscape Architect, Environmental Policy and Planning Unit has initiated his investigation in to the options for planting on the Airport approach and has held discussions with the Airport Company and the Christchurch Beautifying Association on the matter.

Andrew will be in attendance at the Board meeting to report on his proposals.
