

15. DUDLEY STREET ‘GIVE WAY’ AT HILLS ROAD

RR 9360

Officer responsible City Streets Manager	Author Lindsay Eagle, Area Engineer
Corporate Plan Output: Signals, Signs and Shelters 9.5.94	

The purpose of this report is to seek the Board’s approval for the installation of a Give Way control against Dudley Street at the intersection with Hills Road.

The installation of the pedestrian facilities and median strip on Hills Road provided an area where two vehicles can wait between the traffic streams for a gap to turn right into Dudley Street. To give priority so that these right-turning vehicles can clear the major road, it is necessary to have a Give Way against any vehicles turning out from Dudley Street.

The Give Way is shown on the leaflet that was distributed during the public consultation process but it was not formalised with the other controls resolved at that time.

Recommendation: That a Give Way sign be placed against Dudley Street at its intersection with Hills Road.

Chairperson’s

Recommendation: That the officer’s recommendation be adopted.
