The purpose of this report is to submit the Council's comments on the LGNZ discussion document "Transport – Beyond Better" for confirmation.

Earlier this year LGNZ circulated a discussion document on the roading reforms to local authorities for comment.

Draft comments on the document were prepared by the City Streets Manager and referred to the Roothing Reform Working Party on 16 February 1999. As comments on the document were required by mid February the working party, after making a number of amendments, approved the draft.

A copy of the Council's comments incorporating the amendments made by the working party is attached.

Chairman's

Recommendation: That the action taken be confirmed.
