

18. ALCESTER STREET GIVE WAY CONTROL

RR 10779

Officer responsible City Streets Manager	Author Peter Atkinson, Area Engineer (Central City)
Corporate Plan Output: On Street Management	

The purpose of this report is to seek the Committee’s approval to install a give way sign on Alcester Street at its intersection with the car park access road within South City shopping area.

A representative of South City has requested some form of traffic control to avoid confusion at the intersection of Alcester Street and the new car park layout. The most effective way to overcome these problems is to place a give way sign on Alcester Street. Other options are likely to be more confusing with the erection of more than one sign or having the need to rely on road markings

Recommendation: That a Give Way sign be placed on Alcester Street at its intersection with the South City car park.

Chairman’s Recommendation: That the above recommendation be adopted.
