

Officer responsible City Streets Manager	Author Peter Atkinson, Area Engineer (Central City)
Corporate Plan Output: On Street Management	

The purpose of this report is to create a two hour parking restriction on the northern side of Peterborough Street to the west of Madras Street.

The section of Peterborough Street between Manchester Street and Madras Street is presently being reconstructed. An approach has been made from a representative of the small group of commercial and educational uses, at the east-end of these works, for a parking restriction. This section of Peterborough Street is presently unrestricted and is extensively used for long-term parking.

It is proposed to introduce a 2-hour time limit along that section of Peterborough Street adjacent to the above premises. The Parking Manager supports the following recommendation.

Recommendation: That a parking restriction with a time limit of 120 minutes be created on the northern side of Peterborough Street commencing at a point 22 metres measured in a westerly direction from a point opposite the western kerblines of Madras Street and extending in an westerly direction for a distance of 70 metres.

Chairman's Recommendation: That the above recommendation be adopted.
