

<b>Officer responsible</b> City Streets Manager	<b>Author</b> Peter Atkinson, Area Engineer Central City
Corporate Plan Output: On Street Management	

The purpose of this report is to create a new P5 at all times loading zone on the northern side of Hereford Street east of Latimer Square to service the hotel restaurant complex on the corner of the intersection.

A request has been received from the owner of a new boutique hotel complex on the corner of Hereford Street and Latimer Square for an area for guests and other visitors to be able to be dropped off and picked up from the front door. This section of Hereford Street is presently unrestricted and it is an area where there is extensive on street parking both during the day and at night. Therefore vehicles servicing the complex are generally required to double park. To overcome this problem it is proposed to provide a P5 at all times loading zone.

The following recommendation has the support of the Parking Operations Manager.

**Recommendation:** That a P5 At All Times Loading Zone be created on the northern side of Hereford Street commencing at a point 16 metres measured in a easterly direction from a point opposite the eastern kerblines of the eastern part of Latimer Square and extending in an easterly direction for a distance of 13 metres.

**Chairman’s Recommendation:** That the officer’s recommendations be adopted.
