

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer
Corporate Plan Output: Bus Stops	

The purpose of this report is to inform the Board with regard to the request from residents of McCormacks Bay Road to reposition the bus stop from in front of the property at 111 McCormacks Bay Road.

On the bus tour on 8th September, Board Members visited the site to look at the position of the terminus stop for the new bus service, the present bus stop position and the proposed bus stop position, as recommended by the residents.

The Red Bus Company has been requested to carry out a passenger count at the bus stop and the number of stops made. The results should be available to the Board meeting.

An approach has been made to the property owners at 122 and 124 McCormacks Bay Road (proposed relocated site) and they do not agree with a bus stop being placed outside their properties. The second position proposed has not been pursued as this is too close to the bus stop at Maffeys Road.

Recommendation: That the request to relocate the bus stop from outside 112 McCormacks Bay Road be declined.

Chairman’s

Recommendation: For discussion.
