

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer
Corporate Plan Output: Signs and Markings	

The purpose of this report is to gain Board approval for the installation of a “Give Way” against Truscotts Road at Ferrymead Park Drive.

Ferrymead Park Drive is now the main traffic route to the Ferrymead Historic Park. This road is the entrance to the car park area and administration building. To avoid any confusion for traffic from the north section of Truscotts Road, which intersects Ferrymead Park Drive at the bend, it is recommended that a “Give Way” be installed.

Recommendation: That a “Give Way” sign be placed against Truscotts Road at its intersection with Ferrymead Park Drive.

Chairman’s

Recommendation: That the officer’s recommendation be adopted.
