

**10. WATERWAYS AND WETLANDS CAPITAL
WORKS PROGRESS REPORT**

RR 10731

Officer responsible Water Services Manager	Author Ken Couling
Corporate Plan Output: Water Services Capital Outputs, 9.3.44	

The purpose of this report is to provide Community Board members with information about Waterways and Wetlands work in progress in their area. This is a much simplified version of previous financial information supplied and it is hoped that Board members will find it more useful. The Unit will ensure an officer is in attendance to answer any questions, or alternatively, take a note of queries and report back with answers.

Recommendation: That the information be received.
