

12. CATHEDRAL SQUARE: PARKING AND MAINTENANCE ISSUES

Officer responsible Parking Operations Manager City Streets Manager	Author Dennis Morgan
Corporate Plan Output: Car Parking On Street; City Streets - Street Maintenance	

The purpose of this report is to bring to the attention of the Committee concerns which have been raised about the parking of vehicles in Cathedral Square and maintenance of the surfaces in the Square. Solutions to these concerns are sought.

A letter (tabled) from E H Pool is typical of the correspondence received on this issue.

Pedestrian areas are being used as parking areas by visitors and people working in the Square. Vehicles parked in front of seats have made the seats inaccessible and traffic has access to pedestrian areas.

The Chairman has noted a need for more maintenance now that work in areas of the Square has been completed.

The Parking Operations Manager and staff of the City Streets Unit are in attendance to report on action being taken to improve this situation.

Chairman's

Recommendation:

1. For discussion.
2. That the Committee hold a special meeting in Cathedral Square to walk around the Square and discuss issues arising.
