

13. WATERWAYS AND WETLANDS CAPITAL WORKS PROGRESS REPORT

Officer responsible Water Services Manager	Author Ken Couling, Waterways and Wetlands Team Leader
Corporate Plan Output: Water Services Capital Outputs 9.3.44	

The purpose of this report is to provide Community Board members with information about Waterways and Wetlands work in progress in their area.

An officer from the Water Services Unit will attend the Board meeting to answer questions about the attached schedule (*pages 37-38*).

Recommendation: That the report be received.

Chairperson's

- Recommendation:**
1. That the Board receives a report on the salinity monitoring in Kibblewhite Street Reserve when it becomes available.
 2. That the Board receives a report on the pine and macrocarpa trees in Kibblewhite Street Reserve and the replanting programme for these trees.
 3. That the Board receives a report on how industrial waste will be dealt with in the Bexley Wetland.
