

## 17. CLAREVALE RESERVE PLAY EQUIPMENT

<b>Officer responsible</b> Parks Manager	<b>Author</b> Gary Harrow, Area Parks Officer
Corporate Plan Output: Playgrounds - New Installation 1998/99 (p.9.4.92)	

The purpose of this report is to again present the two reports (*attached, see page 49*) on this subject, to enable those wanting to comment on the proposed shift to make representations to the Board.

Board members will be aware of the Parks Unit's previous recommendation that the playground be relocated to position E, described by neighbours as the position most sheltered from easterly winds. It is also one of the lowest areas in this side of the reserve, has minimum impact as viewed from single storied houses and still overlooked by many others to comply with the guidelines of 'The Garden City A Safe City' (parks and public reserves).

If this position was chosen, the shrubberies will be maintained in such a way so they do not excessively obscure the playground.

A more representative plan of the park and the options available is attached (*see page 55*).

Mr Kevin Williams, Parks Project Officer will be in attendance at the meeting.

### **Chairperson's**

**Recommendation:** That the playground be relocated to area E.
