

7. HAZARDOUS WASTE SUBCOMMITTEE

Officer responsible Waste Manager	Author Mike Stockwell, Waste Manager
Corporate Plan Output: Solid Waste	

The purpose of this report is to establish an Hazardous Waste Subcommittee to review the Hazardous Waste Strategy.

The Canterbury Waste Subcommittee (CWSC) has established a working party consisting of representatives from its ten territorial local authorities members and Environment Canterbury. (Membership is Environment Canterbury two, Christchurch City Council one, three rural territorial local authorities one each.) Under the guidance of this working party a Hazardous Waste Strategy document has been produced. The document has been considered by the CWSC which has referred it on to member territorial local authorities for their consideration and comment. Our Council needs to set up a working Subcommittee to do that.

Recommendation: That the City Services Committee establish a Subcommittee to review the Hazardous Waste Strategy document and report back to this Committee then on to the CWSC.

Chairman's Recommendation: That the above recommendation be adopted and the Subcommittee comprise the Chairman of the City Services Committee and Councillors Sally Buck and Ingrid Stonhill.
