The purpose of this report is to submit the outcomes of the Works and Traffic Committee meeting held on Friday 23 June 2000.

The meeting was attended by Helen Broughton (Chairperson), Mike Mora, Bob Shearing. Alison Wilkie was in attendance.

### 1. HARAKEKE STREET KINDERGARTEN ANGLE PARKING PROPOSAL

The Area Engineer (Paul Burden) tabled a draft proposal for angle parking on the Kindergarten side of Harakeke Street. The “paint only” features in this proposal will allow for eight more car park spaces.

The Committee **agreed** to accept the proposal and it was decided that Paul Burden would notify Harakeke Street and Jane Deans Close residents of a meeting to discuss “Parking in Harakeke Street”.

Mr Warren Haynes was in attendance.

### 2. PARKING STRATEGY PUBLIC CONSULTATION

Mike Calvert, Transport Engineer: Policy, from City Streets spoke of the strategy being developed along with the Regional Council and personnel involved in the Regional Land Transport Study.

The aim is to provide policies to prioritise the use of road space.

The Committee was encouraged to put in a submission on the discussion document looking at the issues in:

- Retail areas
- Residential areas
- Recreational areas
- Traffic management and
- Public transport

It was **agreed** that Martin Maguire and Paul Burden gather information on issues and matters already dealt with, to put before the Board on 5 July 2000.

### 3. WIGRAM AIRBASE - SPRINGS ROAD ACCESS

Concerns have been raised regarding the size of the entry/exit point from the Wigram Airbase site into Springs Road. Due to these concerns it was **decided** that the Committee should write to the consultants formalising the concerns raised about the size and the impact of the entry/exit at Springs Road and thanking them for involving the Committee so far.
