

## **7. NATIVE PLANT DESIGN GUIDE**

At the last meeting the Committee heard from Di Lucas as to the proposal to produce a Native Plant Design Guide. This was supported by a background report from the Community Advocate, Papanui, suggesting that any funding should be on a metropolitan basis.

The Committee's recommendation for the formation of a subcommittee to establish how the design guide booklet would be produced and made available to the public was withdrawn at the February Council meeting.

The Committee's recommendation is therefore open for review.
