

## 9. GREGAN CRESCENT - PROPOSED GIVE WAY SIGN

<b>Officer responsible</b> City Streets Manager	<b>Author</b> Brian Boddy Area Engineer
Corporate Plan Output: Street markings and signs	

The purpose of this report is to seek the Board's approval for a Give Way sign to be installed against Gregan Crescent at its uncontrolled intersection with Grahams Road. Gregan Crescent is a local road.

### BACKGROUND

The Area Engineer has investigated the site and found that there are adequate sight distances in both directions along Wairakei Road for a driver leaving Gregan Crescent. Grahams Road is a minor arterial and part of the ring road carrying 12,100 vehicles per day. A hazardous situation exists when a vehicle travelling south on Grahams Road has to stop and give way (as required by the road code) to traffic turning right out of the south leg of Gregan Crescent because of the bend in Grahams Road immediately to the north-east of the intersection. The following south bound traffic can be caught out because of limited visibility while approaching and going around the bend. A sketch of the intersection and bend is **attached**.

### PROPOSAL

That a Give Way sign, as recommended in the New Zealand Land Transport's manual of regulatory signs and markings, be installed against the southern leg of Gregan Crescent to control its intersection with Grahams Road.

**Recommendation:** That a "Give Way" sign be placed against the southern leg of Gregan Crescent at its intersection with Grahams Road.

### Chairman's

**Recommendation:** That the foregoing recommendation be adopted.
